

Precise Cast Prototypes & Engineering Selected as a Colorado Company to Watch

Commerce City, CO – June 4, 2013 – Precise Cast Prototypes & Engineering, Inc., has joined a select group of Colorado companies as they were recently recognized as one of the Colorado Companies to Watch. This selection acknowledges the hard work, dedication and contribution of Precise Cast as a growing company in the state. “Colorado Companies to Watch” honors second stage companies that develop valuable products and services, create quality jobs, enrich communities and create new industries throughout Colorado.

Brett Peak, CEO and co-founder of Precise Cast, comments that “It is a great honor to be recognized as a Colorado Company to Watch. Since starting the business almost a decade ago, we have continued to work hard, innovate, and grow the business. This award speaks volumes about our business and our employees. It feels great to contribute to the growth of our local Colorado economy with revenues primarily generated from our out-of-state clients. ”

"The Colorado Office of Economic Development and International Trade is pleased to recognize Precise Cast Prototypes & Engineering as a 2013 Colorado Companies to Watch Winner. This Commerce City company has established itself as a growth-oriented, innovative manufacturer in Colorado," says Sam Bailey, Program Director of Colorado Companies to Watch. “With Precise Cast's list of clients ranging from John Deere to Lockheed Martin and a commitment to providing the best quality products, Precise Cast is certainly a company worth watching. Congratulations to Precise Cast!"

About Precise Cast Prototypes & Engineering

Precise Cast Prototypes & Engineering, Inc., (www.PreciseCast.com) specializes in rapid prototyping and the precision casting and machining of aluminum, magnesium, and zinc parts primarily for Fortune 500 companies in the aerospace, defense, automotive, commercial vehicle, electronic, and medical device industries. Since 2004, our expert staff uses automation, advanced rapid prototyping technology tools, and the latest precision machining equipment to assure both a high degree of accuracy and quick turn-around times. Whether you need a single part or a thousand, our goal is simple – to make your project a success by delivering parts on time and to your specifications.

About Colorado Companies to Watch

Colorado Companies to Watch (www.Colorado.CompaniestoWatch.org) is a unique statewide awards program recognizing growing companies that fuel the economic fire of the state. Colorado Companies to Watch honors companies that develop valuable products and services, create quality jobs, enrich communities and create new industries throughout Colorado. The Colorado Office of Economic Development and International Trade launched the program in 2009 in conjunction with the Edward Lowe Foundation, and valuable sponsors, key drivers, community partners and volunteers from across Colorado.
